BEYOND SCHOOLING

Edenbridge Grammar

Student Guide to Internet Safety, AI & Digital Citizenship

Why This Guide Matters

At Edenbridge Grammar, technology helps you learn, create, and explore ideas. This guide explains how to use the internet and AI tools **safely, responsibly, and confidently**.

Using technology is a **trust (Amanah)** - and with trust comes responsibility.

Using AI Learning Tools

You will have your own secure login to AI tools used for:

- Learning subjects
- Working on Quests
- Getting feedback and support
- Reflecting on your progress and goals

These tools are:

- For learning only
- Monitored to keep you safe
- Supported by teachers and mentors

They are here to help you grow, not to judge you.

Using the Internet for Learning

You may use the internet to:

- Research topics
- Explore ideas
- Work on creative projects
- Learn new skills

When you are online, you are expected to:

- Stay focused on learning tasks
- Use safe and appropriate websites
- Follow teacher guidance
- Ask for help if something feels wrong

Some websites are blocked to protect you — not to limit your learning.

Creating and Sharing Online Content

You may have opportunities to:

- Build websites
- Create podcasts
- Make videos
- Share projects digitally

When creating content:

- Never share personal details

- Be respectful and thoughtful
- Follow school approval processes
- Remember that online content last

Teachers will guide you every step of the way.

Digital Behaviour and Islamic Values

Your online behaviour reflects your character.

We expect all students to act with:

- **Adab (Respect)** – Kind and respectful communication
- **Haya (Modesty)** – Protecting yourself and others
- **Amanah (Trust)** – Using access responsibly
- **Ilm (Purposeful Learning)** – Learning for good

What you do online matters.

If Something Feels Unsafe

You are never in trouble for asking for help.

If you feel uncomfortable, upset, or unsure:

- Tell a teacher or trusted adult
- Speak up early
- Remember: your safety comes first

EDENBRIDGE GRAMMAR
BEYOND SCHOOLING

Our Promise to You

Edenbridge Grammar promises to:

- Keep digital spaces safe
- Support you when you need help
- Treat you with respect
- Guide you to use technology wisely

Final Thought for Students

Use technology to learn, create, and grow — while protecting your dignity, safety, and values.
